

LED SPOTLIGHT HL SERIES

Since it was first introduced the HL Series of LED Spotlight has been a favourite to many for its size, weight and power that a small package has to offer.

The range has been expanded to include versions with power up to 80W. Bowens-mount adapter built-in. Remote control is optional.

For convenience and quick control of the dimmer.

The latest release is the RGB light producing LED Spotlight. A total of 9 RGB variations and a 3200K/5600K color temperature, the HL-180RGB is a versatile LED light for any setup and situation.
