

MANDA Tripods

TG Series

TG series with breakthrough folding design. It is unique with 180° reverse folding function. The folded size makes it easier to carry with travelling bag.

With titanium coating, the whole tripod is strengthened.

A leg is detachable as an individual monopod.

TG-254C

TG-284C

TG-285C

	TG-254C	TG-284C	TG-285C
Material	Carbon Fiber	Carbon Fiber	Carbon Fiber
Locking Mechanism	Rotating Lock	Rotating Lock	Rotating Lock
Titanium Coating	YES	YES	YES
No of Sections	4	4	5
Tube Diameter	ø25mm	ø28mm	ø28mm
Folded Height	460mm	470mm	470mm
Max. Height	1,600mm	1,800mm	1,800mm
Max. Load	8.0kg	12-14kg	12-14kg
Weight	1.0kg	1.3kg	1.35kg

GX Series

GX series adopt latest carbon fiber technique. Traditional problem of weak tenacity is solved, and anti-resonance is also strongly increased.

Tripod legs adjustable to 3 different angle options.

Center column inversion – easy shooting at multiple angles and low positioning.
